

Foundation to Provide Sexual Assault Care Training

The Illinois Attorney General's Office is pleased to offer a webinar training on sexual assault patient care designed to improve the response to sexual assault patients.

Being on the front lines in the fight against sex crimes makes you a crucial figure in a patient's life.

Survivors of sexual assault rely on medical professionals, sexual assault service providers, law enforcement and prosecutors to treat their physical wounds, help them seek justice and provide support for the severe emotional trauma as they embark on a challenging recovery journey.

The Foundation to Provide Sexual Assault Care Training offers an overview of factors involved in sexual violence and the comprehensive steps required to perform a medical forensic examination and evidence collection.

If you are thinking about becoming a Sexual Assault Nurse Examiner (SANE), this training is the perfect starting point.

Who's Invited:

- Law Enforcement
- Crisis Advocates
- First Responders
- Nurses
- Advanced Practice Providers
- Physicians
- Nursing Students
